## OAUG News Release

### **OAUG Delivers Educational and Networking Opportunities at Oracle OpenWorld 2011**

**ATLANTA – Sept. 13, 2011** - The Oracle Applications Users Group (OAUG), the world's largest knowledgebase for Oracle® Applications users, announced its program of hosted meetings and educational sessions at the upcoming Oracle OpenWorld 2011 conference Oct. 2–6 at the Moscone Center in San Francisco.

Throughout the week of the event, OAUG members will facilitate more than 30 educational sessions addressing the unique training and professional development needs of Oracle Applications users. These sessions showcase the experience of fellow users as well as the expertise of the OAUG's Associate Member community of product and service providers.

User Group Sunday, Oct. 2, is predominantly dedicated to supporting networking and education among Oracle users who share similar interests or those within a certain geographic region. This year, the OAUG hosts more than 55 special interest group (SIG) and geographic (Geo) meetings, which provide an opportunity for peers to learn about their own niche within the Oracle community and network with other applications users.

On Monday, Oct. 3, the recently launched OAUG Executive Roundtable meets to share experiences and discuss best practices involving the many different issues they face as corporate executives and managers of Oracle Applications.

"The OAUG's activities at Oracle OpenWorld center around our primary objectives of delivering relevant education, facilitating powerful networking and empowering influential dialogue with Oracle leadership," said Mark Clark, president of the OAUG.

Attendees are encouraged to visit the OAUG in the Users Groups Pavilion in Moscone Center West, Level Two, to speak with elected leaders and OAUG member volunteers about some of the programs and resources they leverage in their organizations.

For more information about membership in the OAUG and the OAUG's initiatives at Oracle OpenWorld 2011, visit [oaug.org](http://oaug.org).

### **About Oracle Applications Users Group (OAUG®)**

Founded in 1990, the Oracle Applications Users Group (OAUG) is the world's largest knowledgebase for Oracle Applications users. The organization serves as an advocate to Oracle Corp. for companies worldwide, including more than 35 percent of the companies on the Fortune 100 list. The OAUG provides users with education, networking and support via a wide range of activities and forums including conferences, publications, special interest groups and online communities. For more information about the OAUG, visit the website at [oaug.org](http://oaug.org).
