

June 2008

Dear Hyperion User,

The Oracle Applications Users Group (OAUG) welcomes the Hyperion community of users to the Oracle family. The OAUG is ready to assist and enable you to quickly integrate and begin playing an active role within the Oracle Applications community by inviting you to join the OAUG.

The OAUG serves as an advocate to Oracle Corporation on behalf of global Oracle Applications users and is the world's largest knowledgebase for the growing family of Oracle Applications.

The OAUG provides our members with education, networking and influence:

- Access to The OAUG Knowledge Factory™ — the ultimate collaborative knowledge resource, created by and for Oracle applications users to provide a forum for the acquisition, management, storage and dissemination of user knowledge.
- Information about the latest trends and techniques used by industry leaders, provided through OAUG national and regional events and OAUG publications, such as *OAUG Insight* magazine.
- Education through exceptional e-learning and hands-on workshops, as well as discounts to conferences and Oracle education.
- Communication with other OAUG members worldwide through participation in OAUG committees, leadership positions, interaction with Oracle Corporation's user initiatives, frequent member surveys and Oracle management briefings.
- Networking with Oracle customers, industry experts, third-party software firms and other Oracle Applications specialists.
- Advocacy opportunities to influence Oracle on product enhancements, usability, new features, Oracle support, pricing and quality.

We encourage you to visit the Hyperion section of the OAUG Web site at <http://oaug.org/usercommunities/hyperion/> for more information about the OAUG, including educational offerings, networking opportunities and special membership offer.

In addition, the OAUG Hyperion Special Interest Group (SIG) welcomes the Hyperion community of users to participate and help to expand the SIG. For additional information, please visit the Hyperion SIG Web site at <http://hyperionsig.oaug.org>.

Hyperion users are encouraged to contact the OAUG Manager, Affiliate Communities, Regina K. Robuck for more information about OAUG benefits and how you can become active. Regina can be reached at [rrobuck@oaug.com](mailto:rrobuck@oaug.com), or via telephone at +1 404.760.2887.

We are excited to be working with Oracle on this transition and look forward to the Hyperion community being an integral part of the OAUG!

Sincerely,

Jan Wagner  
President  
Oracle Applications Users Group
